

User needs - Gumball classified listings app

As a...	I want to...	So that...
...business owner who needs to be able to track my customers listings	...be able to view a list of all my customers and their contact details	... I can run my business efficiently and can contact customers if any issues arise
...person with colour blindness	...be able to view the content of the page with clear colour contrast	...I can read the content and search for the information I require.
...user with partial site	...be able to tab through the content of the app using Voice Over	...the information on the app is accessible to me.
